WEEKLY REPORT
Summer Internship 2025

Student Name: **Sneh Shah** Roll No : **22IT140** Week No: 2

Duration: **26TH MAY** : **1st June**

Company Name: **Sunny Scientific Enterprise**

Project Name: **Full Stack Software Development**

Summary of Work done the week (Attach supporting Documents):

- Developed the **homepage and About Us page** of the company website using React.js components.
- Implemented a **responsive navigation bar and footer**, ensuring consistency across all pages.
- Applied **Tailwind CSS utility classes** to build a modern, responsive design aligned with company branding.
- Focused on typography, color palette, and alignment to make the design visually appealing.
- Conducted **initial responsiveness testing** on multiple devices and browsers.
- Implemented **reusable card components** for product and service display.
- Held feedback session with the technical team, received suggestions for optimizing the UI design..

Plans for next week:

- Complete **Services and Contact page** development.
- Create a **contact form** and connect it with backend API for storing client inquiries in MongoDB.
- Start documenting the frontend development process for project report.
